British Periodical Literature.

REPUBLICATION OF

The London Quarterly Review,
The Edinburgh Review,
The North British Review,
The Westminster Review,
AND
Blackwood's Edinburgh Magazine.

The wide spread fame of these splendid Periodicals renders it needless to say much in their praise. As literary organs they stand far in advance of any works of a similar character now published, while the political character of each is marked by ability, candor, and forbearance, not often found in works of a party character.

They embrace the views of the three great parties in England—Tory, Whig and Radical—Blackwood and the London Quarterly are Tory, the Edinburgh Review Whig, and the Westminster Review Radical. The North British Review is more of a religious character having been originally edited by Dr Chalmers, and now, since his death, being conducted by his son in law, Dr Hanna, assisted with Sir David Brewster. Its literary character is of the very highest order.—The Westminster, though *reprinted* under that title only, is published in England under the title of the Foreign Quarterly and Westminster, being in fact a union of the two Reviews formerly published and reported under separate titles. It has therefore the advantage by the combination of uniting in one work the best articles of both as heretofore issued.

The above Periodicals are reprinted in New York immediately on their arrival by the British steamers in the mitotic style on fine white paper, and are faithful copies of the originals. Blackwood's Magazine being an exact *fac simile* of the Edinburgh Edition.

TERMS

For any one of the four Reviews	$3 00 per annum
For any two do	5 00 "
For any three do	7 00 "

TO THE AFFLICTED

DR DOUGLASS respectfully informs the citizens of Boston that he may be consulted as to all diseases incident to the human frame, at his office

No. 56 Union Street.

Dr D has been in extensive practice in all parts of the United States, and has now in his possession the best of evidence to show that he is a regular M D. He has been upwards of 10 years in practice. The diseases of females will receive the Dr's particular attention. He will tell all the diseases from an examination of the eye—this is an advantage that Dr D has above all other practitioners, and which will necessarily do away the necessity of a long and unpleasant explanation on the part of the patient of the disease with which they are afflicted. The age and length of time the patient has been suffering is all the Dr will require to give them a most thorough knowledge of their complaint and whether or not a cure can be effected.

Dr D has been very successful in the treatment of Colds, Coughs, Consumptions and Liver Complaints, all Pulmonary diseases, Scrofula, Rheumatism, Fits, Dysentery, all diseases of the Eye and Ear, diseases of the Blood, Palpitation of the Heart, Gout, Salt Rheum, Cancers, cutaneous diseases and all affections of the kidneys and bladder, Tic doloreux, Hernia, Abdominal Weakness, Tooth ache, Intemperance, Stammering. Dr D warrants a cure of any of the above diseases, if applied in season.

He would also respectfully inform the Ladies that he will attend to their diseases and complaints from 8 to 12 AM and from 2 to 9 P M. A full and general assortment of medicines are kept constantly on hand. Printed directions accompany each bottle or package.

All communications (post paid), with a fee enclosed, will be strictly attended to.

Remember the number—56 Union Street.

Justly and Highly Celebrated

Family Medicines!

Comprising the true

Health Restoring Bitters,

PULMONARY ELIXER,

AND

Strengthening Plaster.

TRIED and proved by their continued use for the last fifty years, to be superior to any other preparations for the cure of every species of disease depending upon

Impurities of the Blood, Derangement of the Stomach, Bowels and Liver, and all affections of the Lungs, Air Passages and Throat, as also Pain in the Bones, Joints, Side and Back, Rheumatism, Weak Stomach, Cramp, &c.

None genuine unless signed on the wrapper Stephen Jewett & Co. with a pen, to whom direct orders.

Prepared by STEPHEN JEWETT, son of the late Dr STEPHEN JEWETT of Rochester, N H.

Principal Office,—No. 30, Indian Street, Boston.

Please read the following certificate of a highly respectable and aged gentleman.

KENNEBUNK, N H, April 1 1848

To all whom it may concern:

I the undersigned do hereby certify that I was acquainted with the late Dr Stephen Jewett from my childhood up to the time of his death. I have been intimate neighbor enough to judge of his medical skill and knowledge of Herbs, with hundreds of others now living, and that in the year 1814 I was afflicted with jaundice, palpitation of the heart, pain in the side, and general debility, so as to be *unable to attend to any business*, and he gave me a bottle of the late Dr Stephen Jewett's Health restoring Bitters, which I have found to be famed *Bitters and Plaster*, and by their use was permanently cured. I see the above named Medicines, I have used Dr Jewett's Medicines with equally good effect as prepared by Stephen Jewett son of the late Dr Stephen Jewett of Rochester, N H. I therefore recommend them to the public safe and invaluable medicines—and being composed entirely of vegetables I think them far better and safer than those compounded of mineral or foreign substances. To them not just from facts and experience. I consider Dr Stephen Jewett's Strengthening Plaster far superior to any external application for the purposes for which it is recommended, of any kind I have ever known.

EBENEZER BLAKE

DR STEPHEN JEWETT'S

Health Restoring Bitters.

These Bitters acting as they do upon the Stomach, Liver and Bowels, removing all the morbid secretions, purifying the blood and invigorating the digestive organs, not only cure diseases that already exist, but they also fortify the system against all attacks of disease. It is a common remark among those who have used Dr Jewett's Bitters that they have but little fear of being sick. The remark is strictly true, for when the stomach and bowels are kept in good condition and the blood pure, all the great predisposing causes are removed, and the whole system is fortified against those morbific influences, which under less favorable circumstances would have engendered fevers, and disease.

In order that the public may know that they are offered a truly excellent article, we append the following certificate, which may be seen with numerous others, in their original by calling on the proprietor.

BOSTON, May 15 1848

To all whom it may concern:—This may certify that I have been for several months troubled with a scrofulous humor which has been very troublesome and was fast undermining my health, and had severe pains in the back, loss of appetite, languor and general debility.

A short time since I commenced taking Dr Jewett's Health Restoring Bitters, and in every short time my humors and pains left me, my appetite improved and my health has not been so good for years as of which I attribute to Dr Jewett's Health Restoring Bitters.

CHRS H. RUSSELL, Union Street.

DR STEPHEN JEWETT'S

Pulmonary Elixer.

Nearly one third of all the deaths that occur in New England are caused either directly or indirectly by diseases of the Lungs and Chest. Why is this great sacrifice of human life? How happy it is that the benevolent intellects of the highest promise the hope and support of dying years are sunk in death in early life? Why is it that so many fame has have been made desolate by that fell destroyer Consumption? And how happen it that so many interesting and lovely children are cut down every year by those dread diseases, the Quinsy and Croup? Is it because these diseases are incurable? Physicians will tell you in these diseases can be cured,—if taken in season.

It is true these diseases can be cured with almost absolute certainty—if taken in season. Everybody should be aware of this fact and provide themselves with Dr Jewett's Pulmonary Elixer.

The following certificate among numerous others which have been received are appended for the benefit of those who desire to see certificates.

WINCHENDON Mass March 10 1848

Stephen Jewett—Dear Sir—I feel it a duty to you and to the public generally to inform you all, who may have been afflicted as I have, that I have been entirely cured of a severe and long continued cough by one bottle of your Pulmonary Elixer—For months I have been a great sufferer. I had pain in my left side, sore throat, constant cough, and raised a good deal of bad looking matter. My strength was gone and my flesh was wasting away. I took many things without benefit, and was steadily getting worse till I procured your Pulmonary Elixer, which has cured me, and I cheerfully recommend it to all who are troubled with coughs.

Yours truly

THOS CUMMINGS

DR STEPHEN JEWETT'S

Strengthening Plaster.

These Plasters possess the property of *removing Pain, curing Lameness, Cramp, Pain or Weakness in the Back, Joints or Side, Rheumatism, Weak Stomach &c* and when used in connection with the Bitters, or Liver Diseases will prove very beneficial in removing the peculiar pain between the shoulders and in the side and back, well known to those suffering with such diseases. This Plaster from the quantity and quality given is vastly cheaper than and superior to the 'Poor Man's' or any other Plasters, and can be made any size wanted, without waste. One roll will make five good sized Plasters. A single trial will be all the certificate necessary.

John S. Sayward.—Editor

TUESDAY, FEBRUARY 6, 1849.

☞ The Democratic Review, the ministerial organ of the Loco party, is now out in the New York Mirror in the way of an apology for the abuse which that print, in number after number heaped upon Gen Taylor previous to his election Had he been defeated, this Review would gleefully have joined in the revel of its party, and claimed high merit for what now brings it upon its marrow bones The proprietor of the Review, says that in his November number, "the editor in the heat of his partizanship gave expression to sentiments which I am sure he would gladly recall, and which I do not hesitate to say, were as unworthy of him, as deeply painful to me It is a matter of small concern to Gen Taylor whether he has a columnist for more or less to deal with for his services are known, and his claims upon them are intelligent and just, but it is a point vital upon the success of the party which the Review represents, and is connected with it, that it should not be quoted as lending itself even indirectly to wanton defamation of a man whose fame is national, and whose character is beyond reproach I disclaim for myself, and its editor any such honorable intention The paper could induce Gen Taylor, whatever may have been its party sin of some of his friends, never will be reconciled with loyal appreciation of the spirit of the Democratic Review Should his party fail, and he will have its hearty support Should it give house room to class legislation, at the loss of his reputation, his error will be pointed out and the interests of the country be defended, but all in honor

Such begging on the part of the Review, may be thought by some to bode a better appreciation of the character of Gen Taylor We look upon it in quite a different light The Review, like many of its party now entertains a determination to make an attempt to bring Gen Taylor over to their interests and plans,—in other words to Tyler him, and it wishes to put itself in the best position for this purpose It fails in this attempt to seduce Gen Taylor to locofocoism, as fail it surely will, then it and its supporters and the leading locos will oppose the new administration with a zeal a virulence, a recklessness and a daring, of which the past defamatory course of the Review towards Gen Taylor, furnishes but the faintest indications

☞ The people of Gardiner are much excited on account of three persons there being bitten by a dog supposed to be mad A public meeting assembled to consider what course should be taken to protect the community A committee reported in favor of requiring the owners of dogs to confine them during the night and to keep them muzzled during the day

Another committee reported upon another subject which, from its evil effects ought to excite most communities, viz drunkenness and delirium tremens, that the citizens of the town should command those who persist in selling intoxicating liquors in violation of law and to the exposure of individuals to the evil of drunkenness, to desist from such trade, and force them to obey

Both of the reports met with the hearty approval of the meeting We suppose that if a few persons in this city should be bitten by a mad dog that the whole community would be excited and some measures would be at once taken to get rid of the great mass of dogs now kept in our city But a greater evil, than many mad dogs at large, is to be found in the influence of rum Men staggering in our streets on Sundays—men abuse their families, rob their children of an education and wrong their friends and sink into an early grave and all the while the community sleep on as though all was the result of natural order Bangor must move more energetically to the cure of this evil or be overwhelmed in its in coming tide

☞ A correspondent of the N Y Sun writing from California, says there are several Americans who quit digging after a month's work, being afraid of losing their health from standing in the river Two or three days before there was snow in the mountains, which with the heat at over 100°, could not be played with Thus prudent men, who reach the placer with $20 or $30 in tools are satisfied by leaving it in a month with $1000 to $5000 in gold, others wishing to obtain double the amount die on the spot Whether they will be buried depends on their having time to spare, for at $50 a day is more than Franklin thought of

I have heard some Americans who have died here, being drowned at the ferry, his body washed on the banks I hope so the sharp sighters by saw the body laying there but while they could hear the echo of work for the dangerous day they had no will to hazard their people to the road In the Republic of Mexico there are many Placers perhaps half as good as this one yet the Mexicans rarely work them as it is generally It would be useless to erect Courts of Justice in this State at present, as none would go to Congress at $8 per day

☞ The Boston Journal mentions that Wm J S Brown of this city, whose connection with Cyrus Kidder, and Wm Kimball, the two young men in this city, detected in stealing goods has been arrested in Boston charged with purloining from time to time various articles of dry goods, from the store of his employers.

About $200 worth of the stolen property was found in the room occupied by the unfortunate young man, at his boarding house He was taken before the Police Court and bound over in the sum of $800 to appear for trial Since his examination, more of the missing articles have been recovered

☞ The Newburyport Herald states that the little steamer Lawrence which so profitably and successfully ran on the Merrimac, between Haverhill and Newburyport, last summer, has been sold to a New Bedford Company, who take her out all prepared to put her together again and run on the Sacramento river, directly into the heart of the gold region

☞ The Mercury announced yesterday, that the publisher of that paper, Jeremiah Bartlett Esq, sailed on Friday last from Boston for Chagres in the ship Cossair, on his way to the gold regions. May he be successful in his pursuit and return to his interesting family as rich as he desires

☞ The following article which we copy from the Portland Umpire should interest all our readers and all the People of the State The great enterprise in which the people on the Kennebec have already become largely interested must, in order to be carried through successfully, be deemed a State enterprise this is no new thought with us, as we expressed his view of the subject a long time ago

Maine, as a State has a work to perform if she would discharge the duties of her position by reaching forth a fostering hand to enterprizes which will enable her citizens to avail of the advantages of position and the natural resources of the State

The risk nothing, and the do nothing policy must give place to a higher and a better sentiment and action, just as the old prejudice against corporations melted away on account of the necessity and the effort for rail and improvements The people then should take this subject into consideration and ponder it well and prepare themselves for the necessary action in order to secure the much needed result

The Atlantic and St Lawrence Rail Road

We are apprehensive that the struggle for the salvation of this great enterprise in our Legislature, for an exclusive connection of the St Lawrence region with the Atlantic coast, by way of Portland is not over It appears that a wonderful effort is being made, whether from Boston or elsewhere This is evidence to say the least, that the road to the Canada shed is not over with the Connecticut and Passumpsic River Roads that will in time lead to Boston as well as Portland the trade of the Montreal region

We protest—sorry as we are to indulge the belief—we protest that unless the policy of the State of Maine, as a State, and with its resources, towards her Railroad enterprises be radically changed, and that which has been tried, proved successful and indispensable by and to Massachusetts, be substituted for it Maine will not but partially retain the rich fruits of her lumber markets, and her rapid improvement and will inevitably lose all advantages of trade from outside of her borders

Call this *croaking* if you will But we state what is the signs of the times are writing upon the wall too legibly not to be read in clear and strong letters It is useless for a people to deceive themselves with illusory blessings which their own right arms and strength can only work out for them But more anon

Odd Fish.

The Newburyport Herald states that the stuffed skin of a rare fish is now to be seen in that town It was captured at Nahant Beach early in December it is termed by naturalists, *Sommosiecs Brevipesi*, a Sleeper Shark or Nurse The weight when taken was 1200 pounds—and not a bone was found in the entire system

☞ The Bay State Mills at Lawrence are now lighted by gas manufactured on the premises of the company Many manufacturing establishments find this the cheapest method of lighting their mills The Bay State Company propose to lay pipes and furnish those citizens of Lawrence who desire it with gas lights

☞ Fifteen Members of the Massachusetts Senate, and ninety two Members of the House, according to the list in the Rules and Orders board "a home" The Boston Republican thinks that this is another of the marvellous changes introduced by Railroads

☞ Rev John O Fiske, of Bath, will deliver a lecture before the Lyceum on this evening, on Independence of Character Mr Fiske was a Bangor boy is an eloquent speaker and has a grand subject Of course there will be a full house

Mr I M Lingo, of Pittsburgh Pa, has invented a machine for the manufacture of fancy carving, cutting block letters for signs and wood type, &c, which will prove one of the most useful things of the time It performs the labor of ten men, does it at once, and at an immense saving on the old cost of furnishing such articles

The Augusta Farmer states that on Sunday night last, or early on Monday morning the dwelling house of Capt Samuel Randall, of that village was entered and his trunk robbed of about four hundred and fifty dollars in bank bills Most of the bills were in the banks of Augusta, Hallowell and Gardiner—one fifty dollar bill on the Suffolk Bank Boston

☞ A town meeting is to be held in Needham to take into consideration the subject of protection against mad dogs A dog exhibiting all the symptoms of hydrophobia, was shot in West Walton on Monday Another was killed near the Tremont House in Boston on Tuesday Other dogs had been bitten by them

Population of Portland.

The Argus states that the population of that city has increased more than 25 per cent since 1845 and that it now exceeds 19 000

☞ The sleighing is capital but the market is rather thinly attended The lumbermen are all very busy and the teams in the woods are doing a very good business

☞ Mr Benton it is said, will become a pauper his chamber and Mr Benton's office on the other side of the Isthmus in the way to California, so hinder the adjournment of Congress

An old officer being interrogated, an old soldier observed he was afraid there was something wrong at head quarters

☞ The hon Hon J S Wiley M C also Horace Greeley for speeches and public documents

THE ANTIQUARIAN, a collection of ancient church Music By Leonard Marshall Boston, C H Keith 1849, pp 312

We have received from the publisher a copy of a work with the above general title This singing book is a compilation from the productions of Billings, Holden and other favorite composers of the olden time arranged in accordance with the modern and approved rules of harmony All who love the music of by-gone days will be gratified with its appearance in the present shape, which will justify its introduction into any choir

This new harmonizing of the old tunes will meet the improved taste of the present day and at the same time preserve all the energy of those old melodies which thrilled and elevated the souls of our grand-fathers

The work is well printed in good taste, with a broad, handsome page and on white paper

Punch, looking to the flight of Louis Phillippe, Ferdinand, Metternich, the Pope, &c., &c, during the last twelve months decides that 1848 is decidedly entitled to be called the *Nightmare year* on record

From the Washington Union

Interesting from Panama.

We have been furnished with the following extracts from a letter written by Gen P F Smith, at Panama, dated the 7th inst and lay them before our readers as containing matters of importance especially to that portion of our fellow citizens who are preparing to visit California

PANAMA Jan 7, 1849

* * * * * * *

"The situation of affairs in California is really most extraordinary No accounts we had are exaggerated Capt Henrion de Langie, of the French brig of war Genie now here says that he learned at Valparaiso and Lima that there had been brought to those places from California to be run bars, gold to the amount of nine millions of francs, [near $1 800 000]

The British Consul tells me he has forwarded 15 000 ounces from this place across the Isthmus, and Lieutenant Wood, of the British navy commanding the Pandora, now here, says that the truth is beyond the accounts we have heard

These gentlemen also say that hundreds of people from the western coast of South America are embarking for the gold region, and most of the clerks in the commercial places have quit their employment for the same object

It will evidently be impossible to prevent the troops, when they arrive, from deserting and there will be no force to control the crowd of adventurers that will arrive

* * * * * * *

No preparation was made here by the Steamboat company for transporting passengers across the Isthmus, or affording them any information or assistance to at the roads are all bad impassable, even for mules and the number of boats on the river and animals on the roads is entirely insufficient

The public property in charge of the quartermasters has been lying a week at Cruces waiting for thirty or forty mules to carry it, and the trouble vexation and exposure in getting it up the river Chagres to this place Brought on Captain Elliott the sent quartermaster an attack of cholera of which he died on the night of the 5th and was buried the next day at Cruces in the church yard

Major Fitzgerald has taken charge of the property, but he is now sick here of a similar attack I have directed all the public property and officers baggage now there to be brought at once to this place, which is more healthy The greater part will be carried on mules backs They are now asking $20 apiece for mule loads of one third of the ordinary weight the usual price being from $4 to $5 for full loads I will not attempt to describe the roads or pains

Under these circumstances I think it will not be wise to send anything by this route except a messenger with every small trunk until other arrangements are made The resources of the 19th mus are entirely unequal to the business now thronging to it Flour is to day $10 a barrel, and the inhabitants of the town are alarmed at the prospect of pestilence and famine

Mr Birch a very fine young man, a mechanic from Washington is one of the victims of the cholera at Cruces

The Cabinet.

The Washington correspondent of the Journal of Commerce writes

It is generally believed that Mr Clayton has determined to accept the Attorney General ship under Gen Taylor, and will be appointed Attorney General on his way to Mexico It is believed certain that Mr Clayton will be invited to take the State Department

The number of the Cabinet from New York and may be seen on Friday Dwight is likely to be Mr Evans There will be a Cabinet appointment from New York From Pennsylvania there will be one, if she can produce a suitable man which is doubtful Mr McKennan is now talked of for the office of Postmaster General From Georgia there will be a Cabinet appointment—either Mr Thomas Butler King or George W Crawford

☞ Some of the papers we receive, have been issued from the office of the New York Advertiser, giving an account of the wonderful discovery of one Signor Luigi D Alessandro in California, and obtaining an instrument of his called the Goldometer, which possesses the wonderful power of indicating the location of gold mines Those papers which so flattering it were prevailed each advertiser outset the amount of information or twenty dollars The Advertiser now says that no such article was ever issued from that office nor that it has any knowledge of any such individual as D Alessandro The thing was from the outset glaring imposture, and never intended in the beginning to be taken seriously as a hoax We congratulate the Herald on being one of the others—[Bath Tribune

Cold feet produce the most serious diseases The exercise of walking or riding or any other active employment with regularity in the use of the cold bath, impart warmth to the feet But when one cannot take exercise, the best plan is to plunge the feet into cold water once or twice a day, keep them in the water only for a three second, then rub them dry with a coarse towel and put on the usual covering of stockings or shoes When the health and delicacy to permit the use of the cold bath in this manner, a little cayenne pepper sprinkled in the stocking soles, inside, will cause warmth to the feet

VALPARAIS Nov 30

The excitement respecting California still continues Several expeditions have gone since well at whole, and numbers are fitting out—They take many passengers Young men at sons, merchants, and common laborers—all expecting to reap a golden harvest in that land of promise The Lautaro company has received there with $70 000 in gold having landed $100 000 at Payta for shipment to the United States, via Panama

Love Her Still.

BY T WESTWOOD

Love her still
She hath fallen very low—
Thou who know'st her long ago,
Little little cared thou we
Of her virtue's purity,
But though sin hath left its trace
On her once sweet happy face,
And that innocent maiden brow
Drooped in dark shadow now—
Though life's glory all hath fled,
And life's at time is hers instead,
Love her still

Love her—let no harsh cold word,
Man from type of thine be heard,
Women with no filial eye
Mock thou her degraded
Weep ye—have, give tears alone—
To the world Forsaken one—
Love her still

Love her let her feel your love,
Summer showers that fall above
Fainting blossoms leave with them
Freshened leaf and straightened stem,
Sunshine cleft doth give again
Bloom the blighted storm hath taken,
And this human love of ours,
To the world's poor faded flowers
May be found as dear a boon
As God's blessed rain and sun
To restore their native hue,
And their native fragrance too,
Love her still

Gather round her, weep and pray—
Cheer her, lead her from the way
She doth journey—tenderly
From the wrong and misery,
To the better paths where peace
Waiteth her with sweet release
From life's heart ache, so once more
In her breast her hope of yore
May be lit that holy hope
That with earthly love doth cope,
Earthly sin and earthly shame,
Till all earth is but a name,
And the rescued soul is given,
With its treasure unto heaven
Oh bethink ye of the blow,
That will fill your hearts for this,
Loving friends what time ye see
Shadows after sunshine flee
From her pale and face—what time,
Bearing in a thought sublime,
Ye shall know that sublime pray,
To his angels God doth say,
Love her still

Watching unto Prayer.

In the low vale or on the mountain lonely
The Christian walks or dwells near unto God
More lovely seem the happy retreats above
When seen by faith through penitent tears

More bless the comfort when affliction keen
Hath entered the soul within the prison cell
More than the joy that comes when care is been
Interest a gulf bound in unalloy bright gleam

Sweet were the hours with Jesus presence blest
But bless the path you tread for you are led
A calm and peaceful guide is the hallowed breast
That holds blessing intercourse with God

Seek the low vale and find the sinner's friend
Stand in the skies and meet your Savior there
And while the heavenly choir your praises blend
But know the path is Watching unto prayer

☞ *The Hungarian Balsam Eye* is the Great English Remedy for Consumption and the only certain source of hope in that

Opinion of Dr Olcott Dr Olcott of the professors of Health Parents No XIII (Feb 1849) page says In my remarks on the Consumption I recommend the Hungarian Balsam as an emollient and expectorant I have found it to be a most valuable remedy in my practice

The Hungarian Balsam invented by the celebrated Dr Richter of London England which has proved to be of so much value in diseases of the Lungs is now known and established as a product of the medical faculty both in Great Britain and the United States

Mr S W Fowle—Dear Sir—I many certificates of English origin but *DR MISTADE'S BALSAM OF WILD CHERRY* I can bear testimony of its virtues in my family which has proved to be the best medicine we have ever used for the throat and lungs A few months since my wife's *lungs became so much affected by a cough and cold that she was very low and suffered severely from pain in the breast* Her mother came down from Boston and brought with her a bottle of the Balsam which she had purchased of a agent in that place She took it according to directions and *it proved a wonderful effect* Before she had taken the bottle she had *no pain in her breast and her voice was so much improved* Yours truly

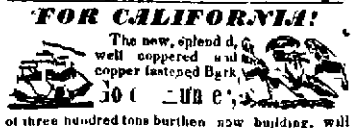
FOR CALIFORNIA!



The new, splendid, well coppered and copper fastened Bark

ADVENTURE,

of three hundred tons burthen now building, will be ready to leave for the *Gold Regions* the last of March next and will proceed directly there provided a sufficient number of passengers and quantity of freight are procured

This Bark will remain upon the coast of California for several months at the most convenient point for the gold region and then return to Bangor

Passengers in the GOLD HUNTER will be supplied with all the necessaries of life and will have the privilege of making the Bark their home and store house while she is on the coast She will be fitted up expressly for this business and every attention will be paid to the wants and wishes of her passengers This is one of the most pleasant modes in which our enterprising citizens, who wish to avail themselves of their recently discovered treasures can go

The GOLD HUNTER will be commanded by one of the most experienced and thorough seamen on the river in whom all will have entire confidence and the voyage will be wholly made up under his direction and with special reference to the interests of the passengers

No voyage has been projected for a long time which promises to be so pleasant and profitable as this, and those who prepare for the passage in this substantial vessel and avail themselves of the numerous advantages her offers, will please make immediate application to the subscriber

A NATURAL HAIR DYE!

BALLARDS IMPROVED LIQUID HAIR DYE is the best preparation that we have ever seen for coloring the hair It will positively restore grey Hair to its original color whether auburn brown or black surpassing in beauty even the most natural locks retaining the gloss and softness of the original Sandy light or red hair can be matched with any darker shade

From numerous laudatory testimonials which may be seen at the manufacturers wholesale depot, No 51 Cortlandt street New York, the following from the celebrated Cristadoro of the Astor House is presented—

No 1 Astor House New York Sept 21 1848—Mr O M Ballard—Dear Sir—It is but justice to you to say that of all the preparations for dying hair I have tried, none has answered so well the purpose as your Improved Liquid Hair Dye, and with a great deal less trouble in using it than any other I give you this testimony upon my solemn conviction that it is worthy the patronage of all who may wish to exchange gray light or red hair for a beautiful auburn brown or black, and from the peculiar softness and lustre which it imparts to the hair the ladies cannot but give it a decided preference Yours respectfully

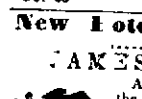
New Hotel at Oldtown!

JAMES STINSON



Announces to his friends and the public, that he has fitted his large, commodious and centrally situated dwelling for a Public Hotel, and has opened the same to the public, with the determination that every attention shall be paid to the accommodation of the travelling community.

He gives full assurance that he will keep a TEMPERANCE HOUSE, and that nothing shall be wanting on his part to entitle him to the approbation of all who may favor him with their patronage. The House will be kept on a liberal scale, and the most assiduous attention shall be given to make the house a desirable and comfortable home for travellers as well as more permanent boarders

It is believed that a Hotel of this description is greatly needed in Oldtown, and the public are invited to give it their support.

of those who have been cured by this valuable medicine. Do not, I pray, suppose I have any power of description, but now I feel as if I could be restored to health and happiness. Another says—I think it is the best medicine I ever used. I also advise my doctor to procure it to be sent over the South, that those similarly afflicted may find it. Another, who is an

EMINENT LAWYER,

and well known in this city, says—My health has been impaired for some years with Epilepsy, but is now enjoying good health from the Vegetable Extract. In hopes of your health, I should be glad to see it made widely known to the public. Another writes—Language is entirely inadequate to express my gratitude to Dr Harris, for having in his hands under the blessing of God recovering me to health, after having been afflicted with Epilepsy in its worst form for more than twenty three years, and in a manner, and by using only three vials, and a month, and by using only one bottle. Now and thankfulness I will continue to say that God who has added to me the whole

Mr J Brant, 15 Orchard street New York states that he has been afflicted with Fits for many years and has spent much money in search of cure, without means in the Vegetable Extract

Dr Phillips, Physician of Rhode Island, Mass, says that he has seen much benefit in the use of the Vegetable Extract, and that he unhesitatingly pronounces it to be the best remedy for the cure of Epilepsy with which he is acquainted

Carr & Stephens, Lynn, formerly Postmaster of Lynn Mass, Co. Wholesale, Co. Wholesale living in Lynn Co Pa, state that persons in their neighborhood have suffered with Fits, and that one bottle has effected a cure, and that he is now happy to add that a persevering use of Harris' Vegetable Extract has restored him to sound health, and he has been entirely free from that worst of all diseases

Mr Stephen H Pratt, Grocer of Sixth Avenue and Twenty sixth Street, New York states that his Children have suffered with Epilepsy, and that he has been afflicted with Fits for many years, and that he has never been cured, and that he has been cured by the use of Harris' Vegetable Extract

PERFECT HEALTH

Be reason which we should enjoy can not be in the hands of many persons, we in the present condition of life, which is unusual. He is now 28 years of age and 27 years 9 months of this time he has been sick with the most dreadful of diseases, but he is now in perfect good health

New Jersey, Nov 1 1848

Dear Sir—I have the experience to tell you that I am well from the use of your Vegetable Extract. I have no doubt it will do as much for others as it has done for me. I am quite well and enjoy good health. The subscriber is ready to give you the testimony of the accident to the public in advance. Yours truly, etc.

WILLIAM SCOTT.

THE TIME IS NOT FAR DISTANT

When a man will be ashamed to own he has suffered from the effects of the use of mercury, and will be ready to confess that every attempt to cure by the use of mercury has only made the patient worse, and left the system in a worse condition than before. Thousands who have tried it, are now in the grave, without children, after using a few bottles of this pernicious poison
